Christmas 2010	£399	£239	Electricity
New Year 2011	£399	£239	Electricity

Guidance for electricity / heating costs.

Allow between £25 and £60 per week, obviously depending on ambient temperature and use. We charge 15p / kW-h (this is less than the energy company). Please note you will be asked for a heating deposit of £60 with your final payment. The difference between this and actual use (based on meter readings) will be returned to you by cheque within 7 days.

Remember. Spring, summer and early autumn costs are inclusive of electricity.
